# HÖRMANN

## Brand Quality You Can Trust

Hörmann are one of Europe's leading providers of garage doors, front doors and operators, with more and more in the market of construction now carrying the Hörmann name.

As a company, Hörmann not only use environmentally friendly products for foaming, which is demonstrated by their 100% CFC-free PU rigid foam, but they also use environmentally friendly products with the colour coating of their doors.

## Choose HÖRMANN

Hörmann offer the highest quality range of Sectional, Roller and Up-and-over garage doors, which are manufactured in Germany. They use the very latest processes, offering a 10-year guarantee for domestic uses; highlighting the confidence in their products.

# SLIDING POCKET DOORS

Sliding pocket doors are the perfect space-saving solution.

## What is a Sliding Pocket Door?

Having limited space can often mean that customised furnishing solutions are required – sliding pocket doors offer the ideal solution.

## How Do They Work?

A pocket door is a sliding door that disappears into a steel pocket within your wall cavity when it is fully opened. This means that it saves more space compared to that of a traditional, hinged door.

## Where Can I Put a Sliding Pocket Door?

Sliding pocket doors are perfect for small bathrooms, closets, and connecting areas, such as a master bathroom, or a walk-in closet.
